〈連繫〉探討早在互聯網盛行之前, 存在於人們之間各種看見與看不見的連繫, 箇中觸及到環境問題, 消費主義, 人口增長, 科技發展, 人權及環球經濟等重大議題。

Connected explores the visible and invisible connection between people, not only in terms of the network technology nowadays, but also in the context of the environment, consumption, population growth, technology development, human rights and the global economy.
